DETAILED ACTION

Allowable Subject Matter

1. Claims 1-11 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Claims 1 and 2

None of the prior art of record teaches or suggests an image forming apparatus having a fixing device which pressurizes and heats an unfixed toner image on a paper sheet as the transfer medium to fix the image on the paper sheet, comprising a controller to change an output order of fixed images to be printed out based on glossiness set by a glossiness changing device.

Claim 3

None of the prior art of record teaches or suggests an image forming apparatus having a fixing device which pressurizes and heats an unfixed toner image on a paper sheet as the transfer medium to fix the image on the paper sheet, comprising a controller to change a fixed image output order based on glossiness of series of fixed images to be printed out and numbers of the series of fixed images to be printed out.

Claims 4 and 5

None of the prior art of record teaches or suggests an image forming apparatus having a fixing device which pressurizes and heats an unfixed toner image on a paper sheet as the transfer medium to fix the image on the paper sheet, comprising a fixing condition changing device to change a fixing condition based on the detected thickness or the input thickness information of the paper sheet, and a controller to change an output order of fixed images to be printed out based on the thickness of the paper sheet.

Claims 6 and 11

None of the prior art of record teaches or suggests an image forming apparatus having a fixing device which pressurizes and heats an unfixed toner image on a paper sheet as the transfer medium to fix the image on the paper sheet, comprising a fixing condition changing device to change a fixing condition based on the detected thickness or the input thickness information of the paper sheet, and a controller to change the fixed image output order based on the thickness of the paper sheet and numbers of series of images to be printed out.

Claims 7 and 10

None of the prior art of record teaches or suggests an image forming apparatus having a fixing device which pressurizes and heats an unfixed toner image on a paper sheet as the transfer medium to fix the image on the paper sheet, comprising a fixing condition changing device to change a fixing condition based on the detected thickness or the input thickness information of the paper sheet, and a controller to change an output order of fixed images to be printed out based on glossiness set by the glossiness changing device, the thickness of the paper sheet and numbers of series of images to be printed out.

Claims 8 and 9

None of the prior art of record teaches or suggests an image forming apparatus having a fixing device which pressurizes and heats an unfixed toner image on a paper sheet as the transfer medium to fix the image on the paper sheet, comprising a fixing condition changing device to change a fixing condition based on the detected thickness or the input thickness information of the paper sheet, and a controller to change the fixed image output order based on glossinesses of series of fixed images to be printed out and numbers of series of images to be printed out.
